

Screenings By DON ALLEN

FILMERICK.

There was a young P. A.—Joe Reddy,
Whose main job was keeping Lloyd
steady—

For Harold would say,
"Bout a ten times a day."
"I'm ready if Reddy is ready!"

PHIL UM SAYS.

"Th' movie camera operator does
many a good turn."

STILL POPULAR.

Dropped in to chat with D. W. Griffith yesterday and was disappointed to find that the master producer was in far-off Chicago seeing to it that "One Exciting Night" had a proper send-off in the breezy Burg.

Learned, however, that in the past few days more than 600 letters have come into the Griffith office, each one bringing a request that he revive some of his old films.

We were given the privilege of glancing over a few of these requests and they made it unanimous in demanding a reshooting of "The Birth of a Nation."

Films may come and films may go, but this classic seems to be in the "Cennyson class."

BIG TIME.

They are planning a big time for tomorrow afternoon at the Cafe Boulevard, when Will H. Hays is to be the guest of honor at the weekly luncheon of the Associated Motion Picture Advertisers.

As a usual thing a promise is made the guest of honor that he will not be called upon for a speech. This formality has been done away with in the case of Czar Hays, and it is expected that he will tell the assembled advertising men a few things he has learned about the industry since he took the reins.

And W. H. H. told us yesterday that he positively would NOT make that "For the motion picture industry is still in its infancy" speech and, that being the case, we think we'll go.

BULL MAKES SOME.

Take the word of J. E. D. Meador for it, Bull Montana had an awful time, writing a Christmas letter to his folks in Voghera, Italy.

Bull, it seems, had purchased

No. 2 What I know about COLGATE'S RIBBON DENTAL CREAM

I know that I could scrape my teeth clean with a soapless, gritty tooth paste, but I know that washing is safer than scouring.

I know that COLGATE'S is made from non-gritty chalk and pure soap, which will loosen and wash away injurious substances in my mouth.

I know COLGATE'S cleans my teeth thoroughly and that no dentifrice does more.

many, many Xmas gifts and was busy jotting down a few loving words to send along.

"By the way," Bull asked J. E. D., "how do you spell quart, anyway?"

"You don't spell it," interrupted Spike Robinson. "You drink it!"

"And, besides," broke in Meador, "it's against the law to send any of that stuff through the mails."

"I'm not gonna send and 'stuff,'" explained Bull, "I'm telling 'th' ol' man I'm sen'in' him a two-quart hat!"

STOCK JUMPS.

Climbed into the Harold Lloyd auto yesterday and, along with the famous young comedian, was whisked away to the Stock Exchange.

"I want to see how fortunes are made and unmade," explained Harold. "I'm going to sneak in without any glasses, and won't be known. They'll leave me alone and I can watch 'em trade!"

The machine swirled downtown so fast that no one could recognize the comique, and we stalked into the Exchange as big as life and mingled with the other visitors.

It took some little time to get used to the noise below us, but we could soon distinguish some few words. In a few moments nearly all the yellers seemed to be calling the same name and all we could hear was, "Lloyd! Lloyd! Lloyd!"

That would have been all right, but a middle-aged visitor, probably from

the corn belt, stepped up beside Lloyd and remarked casually, but above the din:

"They are sure tradin' heavy in that Lloyd stock to-day, ain't they?"

And Harold just smiled and left.

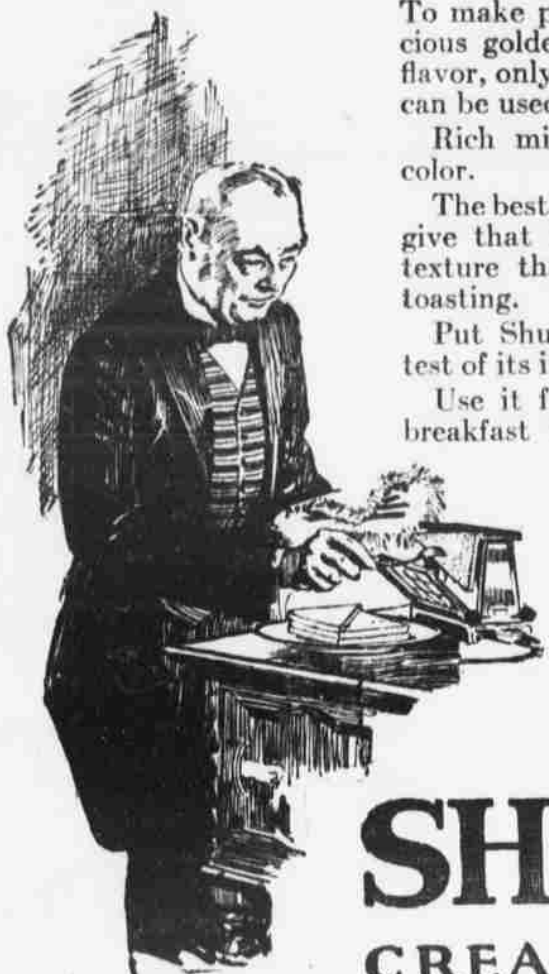

STATIC.

Johnnie Walker, the only Bronzite we know who has attained movie stardom, is busy making "Captain Fly-by-Night" for F. B. O.

Two Miss Claytons are working on the same lot these days. Ethel Clayton is busy making "The Remittance Woman," while Marguerite Clayton is playing opposite Harry Carey in a big picture. The Misses Clayton are not related.

Bread of the richest ingredients

makes the richest toast

To make perfect toast of that delicious golden brown color, and rich flavor, only bread of rich ingredients can be used.

Rich milk gives it its delicious color.

The best flour, milk, lard and yeast give that full flavor and the even texture that bread must have for toasting.

Put Shults Cream Bread to this test of its ingredients.

Use it for French toast, or soft breakfast toast. It slices evenly, browns deliciously, and the toasting actually brings out the full flavor of its rich ingredients. Your grocer gets Shults Cream Bread fresh twice daily.

Grandma used Sage Tea to Darken Hair

GRANDMOTHER kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through the hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color, and looks glossy, soft and beautiful.

Dr. Adler's Metacarpal Curve

To keep baby's
foot perfect

NOTHING is more true than that "As the twig is bent, so is the tree inclined," and the time to make sure that the feet of children shall grow into perfect strength and beauty is when they wear their earliest shoes. Even the shoes made for very young children should be built with the Dr. Adler Metacarpal Curve, which supports the young feet just where they need it, and which helps the young feet to grow as Nature intended.

That child will have few foot troubles in later years who is fitted with

Dr. Adler's SCIENTIFIC HYGRADE SHOES

This scientific curve shown in the illustration marks the essential difference between Dr. Adler's Scientific Hygrade Shoes and other shoes for children, infants, boys and men. Be sure that your baby's shoes are built with the Dr. Adler Metacarpal Curve of Dr. Adler's Scientific Hygrade Shoes. If your dealer cannot supply you write ROSENWASSER BROS., Inc., Dr. Adler's Scientific Hygrade Shoe Division, Factories: Long Island City, N. Y.
